### DREAM Program:

The DREAM Project is funded by PCC's yearly DREAMers Gala. All funds collected go towards students who earn a scholarship. The DREAM Project is currently housed at Rock Creek.

The DREAM Project is a mentoring program that offers scholarships or tuition support to PCC Undocumented and DACAmented students. We focus on the empowerment and support of DREAMers because we recognize that Undocumented and DACAmented students face unique and distinct challenges that require additional support to embark on this educational journey successfully.

DREAM Project mentees are PCC students navigating the PCC system for the first time, or students that have not completed their first year. As a mentee, you will be assigned a mentor that is also Undocumented or DACAmented and has successfully learned and navigated the PCC system. Mentees are required to commit to at least 30 hours of training, mentoring contact, and meetings with the program coordinator over the course of winter and spring terms.

The goal of the DREAM Project is to provide Undocumented and DACAmented college students with an opportunity to develop leadership skills, explore career options, and gain knowledge on how to navigate the PCC system.

### Counseling:

PCC offers free, short-term counseling to currently enrolled students (excluding Community Education). Service eligibility begins two weeks prior to a given term. TRiO/Student Support Services (SSS):

Our nation has asserted a commitment to providing educational opportunities for all Americans regardless of race, ethnic background or economic circumstance. In support of this commitment, Congress established a series of programs to help low-income Americans enter college, graduate, and move on to participate more fully in America's economic and social life. These programs are funded under Title IV of the Higher Education Act of 1965 and are referred to as the TRiO Programs (referencing the fact that there were initially only three programs-Upward Bound, Talent Search, and Student Support Services). While student **FINANCIAL AID** programs help students overcome financial barriers to higher education, TRiO programs help student overcome class, social and cultural barriers to higher education.

#### Scholarships:

Scholarships are monetary gifts presented to students who meet conditions defined by the person or group giving the money. Many organizations, agencies, and businesses offer scholarships. There are many online sources of information about available scholarships, including UCC Foundation opportunities.

The UCC Foundation generally observes a limit of \$4,000 per student, per academic year for Foundation scholarships. However, some exceptions may apply.

Scholarships offer a good way to help pay for your education. Thousands of scholarships are available each year, and every one of them has its own unique requirements. There are scholarships that match each individual's skills, interests, heritage, and field of study. Also, it is important to be sure to keep track of academic achievements, work experience, and extracurricular activities. Many scholarships are based on the recipient's involvement in certain activities and/or association with particular groups.

### TRiO/Student Support Services (SSS):

Our nation has asserted a commitment to providing educational opportunity for all Americans regardless of race, and ethnic background or economic circumstance. In support of this commitment, Congress established a series of programs to help low-income Americans enter college, graduate and move on to participate more fully in America's economic and social life. These programs are referred to as the TRiO Programs (initially just 3 programs). While student financial aid programs help students overcome financial barriers to higher education, TRiO programs help students overcome class, social and cultural barriers to higher education.
